|----------|---|
| ID-41-59 | Bridge 46, view looking north at Milepost 46.27   |
| ID-41-60 | Bridge 44, view looking north at Milepost 44.61   |
| ID-41-61 | Bridge 44, detailed view of steel cap, looking south. Bents 1 through 19 have steel caps. Bridge is at Milepost 44.61                       |
| ID-41-62 | Bridge 44, view looking north at Milepost 44.61   |
| ID-41-63 | Bridge 46, view looking southwest at Milepost 46.27. It is 646' long and 86' high   |
| ID-41-64 | Bridge 46, detail view looking south at Milepost 46.27. The spans are numbered  |
| ID-41-65 | Bridge 46, view looking north at Milepost 46.27   |
| ID-41-66 | Bridge 46, view looking north at Milepost 46.27   |
| ID-41-67 | Bridge 46-1, view looking west at Milepost 46.84  |
| ID-41-68 | Bridge 46-1, view looking south at Milepost 46.84   |
| ID-41-69 | Bridge 47, view looking east at Milepost 47.003   |
| ID-41-70 | Bridge 47, view looking east at Milepost 47.003   |
| ID-41-71 | Bridge 48, view looking northwest at Milepost 48.63. The bridge is 641' long and 100' high  |
| ID-41-72 | Bridge 48, view towards the east at Milepost 48.63  |
| ID-41-73 | Bridge 48, view towards the south at Milepost 48.63   |
| ID-41-74 | Bridge 48, view towards the east at Milepost 48.63  |
| ID-41-75 | Bridge 50, Cottonwood at Milepost 50.66, view looking south. This bridge is 542' long, 51' high and passes through the center of Cottonwood |
| ID-41-76 | Bridge 50, Cottonwood, view looking south at Milepost 50.66   |
| ID-41-77 | Bridge 50, Cottonwood, view looking south at Milepost 50.66   |
| ID-41-78 | Bridge 50, Cottonwood, view looking north at Milepost 50.66   |
| ID-41-79 | Bridge 50, Cottonwood, view looking north at Milepost 50.66   |
| ID-41-80 | Bridge 51, view looking southeast at Milepost 51.89. The cattle underpass is the smallest bridge on the line                                |
